	Ongoing CPD	£300	
	Transport to events	£800	
			Total spend on objective: £6337
Overall total spend for 2021-22 : £18,287			

Impact of premium use	
What has been the impact on pupils' participation?	Children attended cluster tournaments and events promoting teamwork and self-worth. Improved positive attitude towards physical activity with all children participating in lessons. The school in house clubs showed an increased participation. Inter house competitions throughout the year. Children are given a wide range of activates to support them in finding their passion.
What has been the impact on pupils' attainment?	The children at Mickleton are developing a love for sport and we have developed a positive attitude to PE in general. Club attendance was beginning to grow especially football. A successful floorball campaign was supported by a school funded afterschool coaching session. This is something the school will continue to develop moving forward. We participate to local tournaments, report on results in assembly and share success with parents and the local community via seesaw.
How has the premium allowed pupils to develop active lifestyles?	We have updated equipment this year as well as better storage equipment. We have invested in football, netball and general equipment. School staff have been used to run active sessions every morning. The school benefits from the use of a MUGA meaning the children can use a dedicated space for a variety sporting lessons.
How will the school sustain the improvements?	• Continue to monitor the attendance of clubs • Continue to attend local cluster events • Look into Active schools and Gym Run colours to track individual children's progress. • Enter the school games award with a view of achieving silver.
(Updated January 2025) Swimming Report 2024-25 End of KS2 assessment	
What impact has the premium had against the national curriculum for	Every child in KS2 completes a fully funded swimming program.

swimming and water safety.
